

LED MINI STAR II

NOW DIMMABLE!

SCHEMATICS:

DESCRIPTION:

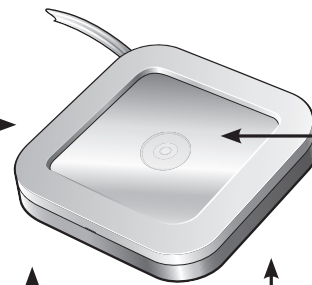

Ultra thin 3.26 watt LED under cabinet light fixture. Energy savings of 82% vs. Xenon/Halogen technology. Fixture circuitry allows expandable system design from 1 to 25 fixtures per remote power supply. 24VDC replaceable module included. Four fixture finishes of white, bronze, aluminum and black. Now dimmable!

APPLICATIONS

- ▶ Under cabinets
- ▶ Cabinets
- ▶ Shelves
- ▶ Display cases
- ▶ Work stations

FEATURES

- No custom cords to buy or hide.
- Optional CL2 lead wire to terminal block connectors. CL2 wire is listed to allow wall penetration. See instructions.
- The same light output of Xenon/Halogen technology
- Pleasingly warm color temperature of 3000K
- Replaceable 24VDC LED Module rated at 40,000 hours

- Energy usage of only 3.26 watts per fixture

Slim Profile

- Ultra thin 1/2" fixture profile
- Available in four fixture finishes: White, Bronze, Aluminum, Black

Suitable for
• Damp Location

ORDERING LOGIC:

LMSII-Z-YY

Z = FIXTURE TYPE

F = Individual Fixture

YY = FIXTURE FINISH

WH = White

BZ = Bronze

BK = Black

AL = Aluminum

EACH FIXTURE INCLUDES:

- (1) LED Mini Star II light fixture with 36" lead wire and mounting hardware
- (1) Junction Box with Terminal Block
- (3) Wire screw clips
