

Transformers - Electronic

UL listed as a component ("RU" Marking).

TER-12-60/W (white)
TER-12-60/B (black)
3.5" x 1.5" x 1"
1 circuit at 60 watts, class 2,
for 11.6V AC

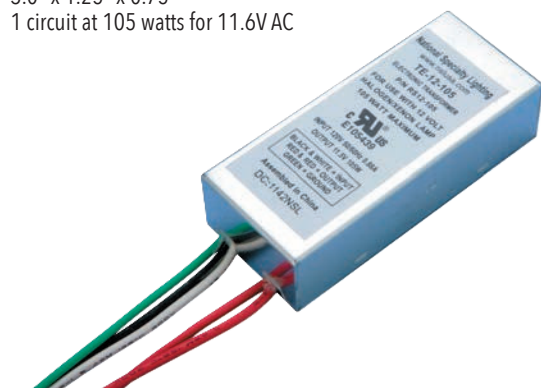

TE-12-75
2.08" x 1.30" x 0.79"
1 circuit at 75 watts for 11.5V AC

NOTE: Must use a minimum of
20 watts when using dimmers.

TE-12-105
3.0" x 1.25" x 0.75"
1 circuit at 105 watts for 11.6V AC

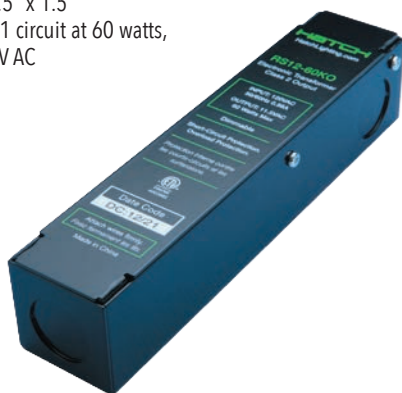

TE-12-150
4.0" x 1.6" x 1"
1 circuit at 150 watts for 11.6V AC

Transformers - Electronic

ETL listed as a stand alone power supply ("ETL" Marking).

TECLT-12-60
6.5" x 1.5" x 1.5"
Class 2, 1 circuit at 60 watts,
for 11.7V AC

TECLT-12-150
7.1" x 1.75" x 1.75"
1 circuit at 150 watts,
for 11.7V AC

Each transformer is enclosed in a painted
steel enclosure with 1/2" knockouts for the
incoming 120V AC and the 11.7V AC output.
